ABOUT INDORE

Indore is the largest city in the state of Madhya Pradesh. It is situated on the banks of the River Khan and Sarawati. Indore is known for its architectural splendor. The tales of the glorious past are narrated by these splendid historical monuments and cast a magical spell on the visitors Rani Ahilya Bai Holkar was a great architectural patron and spent a lot of money on the construction of many temples across the nation. Apart from being a historical city, Indore is also the commercial capital of the state of Madhya Pradesh. Indore is a host to many industries, like automobile, textile, IT etc. With latest technological advancements, the city is about to become the IT hub of the state of MP. Other than this, there are a number of educational institutes in Indore which are amongst the best in the country. The first and foremost are IIT & IIM Indore, which are amongst the pioneer institutes in India.

ABOUT KUALA LUMPUR

Kuala Lumpur, the capital city of Malaysia, is a vibrant and dynamic metropolis known for its cultural diversity, modern skyline, and rich history. Located at the confluence of the Klang and Gombak rivers, it has evolved from a small tin mining settlement in the 19th century into one of Southeast Asia's most prominent urban centers. The city is home to iconic landmarks such as the Petronas Twin Towers, which were once the tallest buildings in the world, and the Kuala Lumpur Tower, offering panoramic views of the cityscape. These structures symbolize the city's rapid growth and its blend of traditional charm and futuristic ambition. Kuala Lumpur is a major economic and commercial hub, housing numerous multinational companies and industries in finance, technology, and manufacturing.

OBJECTIVE OF CONFERENCE

The objective of this international conference is to foster a dynamic exchange of knowledge and innovation across the domains of mechanical, civil, electrical and computer engineering. By bringing together leading scholars, industry experts, and visionary practitioners, the conference aims to strengthen academic-industry collaboration and provide a forum for the dissemination of pioneering research, advanced technologies, and future-oriented solutions. Emphasizing interdisciplinary synergy, the event is aimed at addressing pressing global challenges while promoting sustainable, cutting-edge practices. Ultimately, it aspires to contribute to the technological growth and sustainable development of our nation, positioning it at the forefront of global innovation. The conference will feature keynote addresses from eminent personalities in various fields aligned with the theme, including distinguished Indian and international speakers.

ABOUT MEDICAPS UNIVERSITY

For more details visit : www.medicaps.ac.in

Medicaps University is one of the brand name in the arena of technical education and contributing in making Indore an educational hub. Since its inception in July 2000, the group consistently aims at creating an ideal ambiance for budding technocrats and helping them grow like professionals. The main strength of Medicaps University is its highly qualified faculty. We have optimal blend of academic brilliance and industry exposure, which is supplemented by highly specialized visiting faculty and industry experts, Medical senior professionals from various segments of different industry/ business houses. This helps in refining the works, candidature of our students from different fields.

ABOUT TARUMT

For more details visit : www.tarc.edu.my

Tunku Abdul Rahman University of Management and Technology (TAR UMT) is a prominent Malaysian institution contributing to Kuala Lumpur's reputation as an educational hub. Established in 1969, it offers industry-relevant programs in management, technology, and engineering. TAR UMT's key strength lies in its blend of academic expertise and industry experience, supported by visiting professionals and experts. This approach ensures students gain both theoretical knowledge and practical skills, preparing them for success in the global job market. With strong emphasis on innovation, leadership, and professional development, TAR UMT continues to produce well-rounded graduates who contribute effectively to the nation's growth.

CALL FOR PAPER

Original Papers are invited for following Tracks and Sub-Themes

TRACK 1: MECHANICAL ENGINEERING,
Materials Engineering, Thermal and fluid sciences drive advancements in design and optimization. Robotics and mechatronics enhance manufacturing, while tribology and computational mechanics address challenges. Innovations in space exploration support Earth monitoring and commercialization.

TRACK 2: CIVIL ENGINEERING

Sustainable Infrastructure: Smart structures leverage innovations to enhance urban infrastructure. Water resource management, sustainable materials, construction automation, and robotics enable physical resilience. Strategies support performance-based design and climate resilience, while innovative waste management and disaster resilience strategies address urban challenges.

TRACK 3: ELECTRICAL ENGINEERING
Smart grid technologies and energy management enhance renewable energy integration. IoT applications and machine learning support advanced power systems and electric vehicle infrastructure. Innovations in energy storage, wireless communication, and smart sensors drive automation and AI optimizes power systems.

TRACK 4: COMPUTER TECHNOLOGIES AND ITS APPLICATIONS
AI and ML boost data science, while cloud computing enhances scalability and cybersecurity. IoT connects devices, and blockchain secures transactions. Quantum computing and green computing drive digital transformation, with innovations like hyperloop and precision agriculture revolutionizing industries.

TRACK 5: Electronic And Communication
Focuses on cutting-edge research in areas like communication systems, signal processing, embedded systems, telecommunications, VLSI design, and automation.

TRACK 6: THE SPECTRUM OF INDUSTRIAL PRACTICES AND CHALLENGES

Sustainable industry practices focus on eco-friendly methods, circular economy models, and human-centric approaches in Industry 5.0. Addressing global supply chain dynamics, quality management, privacy, security, and environmental impacts is essential, supported by relevant case studies.

TRACK 7: MATHEMATICS AND ITS APPLICATION IN VARIOUS FIELDS

Game Theory, Cryptography, Operation Research, Optimization Theory, Fuzzy Theorem, Computer Aided Geometrical Designs Using Splines, Graph Theory and the Combinatorics, Mathematical and Logical Foundation, Number Theory, Number Analysis and Computation Mathematics, Probability and Statistics, Modeling and simulation, Image Processing and Fixed Point Theory, Discrete Mathematics, General Mathematical Research and Multi Multidisciplinary

Papers:

Full length paper should have the Objective Design/ Methodology/ Approach and Findings Scope for future work/Limitations and References.

Guidelines:

Manuscripts for IC-EETA-2025 will ONLY be accepted in electronic format through cmt online submission system. Do not send hard-copy of your paper. Please submit the paper in format only. If you are unable to submit your contribution through cmt, please send your paper to

Submit your manuscript as per the guidelinestt.

1. Authors should only submit originally written, unpublished work.

2. Submissions should strictly follow the recommended . conference template.

3. All references must follow the . format of referencing.

4. Please limit your paper within 6 pages, and the size of your PDF file less than 2MB, files larger than 2MB will not be accepted for upload

Authors wishing to submit an over-length manuscript may do so. There will be an over-length page fee of INR 1500 per page and limited to an

additional 2 pages (maximum page submission is eight (8) pages). This payment will be required after conformation along with final submission

Submit Papers:

Original papers are invited in the following Tracks & papers may be submitted through cmt.
