

IC-EETA'25

IEEE International Conference on

EMERGING ENGINEERING TECHNOLOGIES AND APPLICATION

Date: 06-08 November, 2025

Organizing By

**MEDICAPS UNIVERSITY, INDIA
& TARUMT, MALAYSIA**

(Presentation will be in parallel) Opportunity to
present your paper in Malaysia

Collaborations

Collaborating Universities

Objective of Conference

The objective of this international conference is to foster a dynamic exchange of knowledge and innovation across the domains of mechanical, civil, electrical, electronics, information technology and computer engineering. By bringing together leading scholars, industry experts, and visionary practitioners, the conference aims to strengthen academic-industry collaboration and provide a forum for the dissemination of pioneering research, advanced technologies, and future-oriented solutions. Emphasizing interdisciplinary synergy, the event is aimed at addressing pressing global challenges while promoting sustainable, cutting-edge practices. Ultimately, it aspires to contribute to the technological growth and sustainable development of our nation, positioning it at the forefront of global innovation. The conference will feature keynote addresses from eminent personalities in various fields aligned with the theme, including distinguished Indian and international speakers.

About Medicaps University

Medicaps University is one of the brand name in the arena of technical education and contributing in making Indore an educational hub. Since its inception in July 2000, the group consistently aims at creating an ideal ambiance for budding technocrats and helping them grow like professionals. The main strength of Medicaps University is its highly qualified faculty. We have optimal blend of academic brilliance and industry exposure, which is supplemented by highly specialized visiting faculty and industry experts, Medical senior professionals from various segments of different industry/ business houses. This helps in refining the works, candidature of our students from different fields.

About TAR UMT

Tunku Abdul Rahman University of Management and Technology (TAR UMT) is a prominent Malaysian institution contributing to Kuala Lumpur's reputation as an educational hub. Established in 1969, it offers industry-relevant programs in management, technology, and engineering. TAR UMT's key strength lies in its blend of academic expertise and industry experience, supported by visiting professionals and experts. This approach ensures students gain both theoretical knowledge and practical skills, preparing them for success in the global job market. With strong emphasis on innovation, leadership, and professional development, TAR UMT continues to produce well-rounded graduates who contribute effectively to the nation's growth.

Call for Paper

Original Papers are invited for following Tracks and Sub-Themes

TRACK 1: MECHANICAL ENGINEERING

Materials Engineering, Thermal and fluid sciences drive advancements in design and optimization. Robotics and mechatronics enhance manufacturing, while tribology and computational mechanics address challenges. Innovations in space exploration support Earth monitoring and commercialization.

TRACK 2: CIVIL ENGINEERING

Sustainable Infrastructure: Smart structures leverage innovations to enhance urban infrastructure. Water resource management, sustainable materials, construction automation, and robotics enable physical resilience. Strategies support performance-based design and climate resilience, while innovative waste management and disaster resilience strategies address urban challenges.

TRACK 3: ELECTRICAL ENGINEERING

Smart grid technologies and energy management enhance renewable energy integration. IoT applications and machine learning support advanced power systems and electric vehicle infrastructure. Innovations in energy storage, wireless communication, and smart sensors drive automation and AI optimizes power systems.

TRACK 4: COMPUTER TECHNOLOGIES AND ITS APPLICATIONS

AI and ML boost data science, while cloud computing enhances scalability and cybersecurity. IoT connects devices, and blockchain secures transactions. Quantum computing and green computing drive digital transformation, with innovations like hyperloop and precision agriculture revolutionizing industries.

TRACK 5: ELECTRONIC AND COMMUNICATION

Focuses on cutting-edge research in areas like communication systems, signal processing, embedded systems, telecommunications, VLSI design, and automation.

TRACK 6: THE SPECTRUM OF INDUSTRIAL PRACTICES AND CHALLENGES

Sustainable industry practices focus on eco-friendly methods, circular economy models, and human-centric approaches in Industry 5.0. Addressing global supply chain dynamics, quality management, privacy, security, and environmental impacts is essential, supported by relevant case studies.

TRACK 7: MATHEMATICS AND ITS APPLICATION IN VARIOUS FIELDS

Game Theory, Cryptography, Operation Research, Optimization Theory, Fuzzy Theorem, Computer Aided Geometrical Designs Using Splines, Graph Theory and the Combinatorics, Mathematical and Logical Foundation, Number Theory, Number Analysis and Computation Mathematics, Probability and Statistics, Modeling and simulation, Image Processing and Fixed Point Theory, Discrete Mathematics, General Mathematical Research and Multi Multidisciplinary.

Opportunity to present your paper in Malaysia

Papers:

Full length paper should have the Objective Design/ Methodology/ Approach and Findings Scope for future work/Limitations and References.

Guidelines:

Manuscripts for IC EETA 2025 will ONLY be accepted in electronic format through cmt online submission system. Do not send hard-copy of your paper. Please submit the paper in format only. If you are unable to submit your contribution through cmt, please send your paper to Submit your manuscript as per the guidelines.

Authors should only submit originally written, unpublished work.

Submissions should strictly follow the recommended conference template.

All references must follow the format of referencing.

Please limit your paper within 6 pages, and the size of your PDF file less than 2MB, files larger than 2MB will not be accepted for upload. Authors wishing to submit an over-length manuscript may do so. There will be an over-length page fee of INR 1500 per page and limited to an additional 2 pages (maximum page submission is eight (8) pages). This payment will be required after confirmation along with final submission.

Submit Papers:

Original papers are invited in the following Tracks & papers may be submitted through cmt. <https://cmt3.research.microsoft.com/ICEETA'25>

Conference Proceeding :

The accepted papers will be published in Scopus indexed conference proceedings. For more details visit: <https://conference.medicaps.ac.in>

Payment Details :

<https://portal.medicaps.ac.in/accsoft2/MiscellaneousPayment.aspx>

Contact Details :

Prof. Vipin Sharma - +91 94796 28030

Prof. Sanjiv K. Jain - +91 98272 82120

Prof. Ram Bansal - +91 7000110427

Email: iceeta2025@medicaps.ac.in

Scan QR for Registration

For More Details go to the website: <https://conference.medicaps.ac.in>

IMPORTANT DATES

Full Paper Submission: June 15, 2025

Notification of Acceptance: June 30, 2025

Final Paper Submission: July 31, 2025

Early Bird Registration July 15, 2025

REGISTRATION CHARGES

Non-IEEE Professional **9000 INR**

IEEE Professional Members **8000 INR**

Non-IEEE Students **8000 INR**

IEEE Students **7000 INR**

Industry Participants **10000 INR**

Prof. (Dr.) Sandeep Choudhary, Professor, IIT Indore
Prof. (Dr.) Neelima Satyam, Professor, IIT Indore
Prof. (Dr.) Ravi Sharma, Professor, NIT Hamirpur
Prof. (Dr.) R.K Datta, Professor, NIT Hamirpur
Er. Anurag Surana, Sr Ger Manager, PATH Infra Indore
Er. Rahul Goel, Zonal head & Vice president, Ultratech Cement Ltd

About Indore

Indore is the largest city in the state of Madhya Pradesh. It is situated on the banks of the River Khan and Sarawati. Indore is known for its architectural splendor. The tales of the glorious past are narrated by these splendid historical monuments and cast a magical spell on the visitors. Rani Ahilya Bai Holkar was a great architectural patron and spent a lot of money on the construction of many temples across the nation. Apart from being a historical city, Indore is also the commercial capital of the state of Madhya Pradesh. Indore is a host to many industries, like automobile, textile, IT etc. With latest technological advancements, the city is about to become the IT hub of the state of MP. Other than this, there are a number of educational institutes in Indore which are amongst the best in the country. The first and foremost are IIT & IIM Indore, which are amongst the pioneer institutes in India.

About Kuala Lumpur

Kuala Lumpur, the capital city of Malaysia, is a vibrant and dynamic metropolis known for its cultural diversity, modern skyline, and rich history. Located at the confluence of the Klang and Gombak rivers, it has evolved from a small tin mining settlement in the 19th century into one of Southeast Asia's most prominent urban centers. The city is home to iconic landmarks such as the Petronas Twin Towers, which were once the tallest buildings in the world, and the Kuala Lumpur Tower, offering panoramic views of the cityscape. These structures symbolize the city's rapid growth and its blend of traditional charm and futuristic ambition. Kuala Lumpur is a major economic and commercial hub, housing numerous multinational companies and industries in finance, technology, and manufacturing.
